EDUCATION

42 Bangkok — Software Engineering & Systems Programming

Sep 2025 – Present

- Ranked **1st ex-aequo** during the selection month (Piscine); currently **Top 5** of the cohort
- Project-based curriculum focused on C, Unix/Linux, algorithms, and systems programming
- Strong experience with peer learning, code reviews, and autonomous problem-solving

French Baccalauréat (High School Diploma) — Independent Candidate

Jun 2024

- Prepared and passed the national exam through self-directed study
- Used online resources (MOOCs, educational platforms, AI tools)
- Developed strong autonomy, discipline, and learning methodology

TECHNICAL PROJECTS

AI-Powered Email Automation Platform — Python, LLM APIs, Web Technologies

- Developing an email processing system to automate classification and response generation for a client
- Integrating Large Language Models to generate context-aware replies
- Designing a secure web interface to manage workflows

Emotion & Gesture Detection Tool — Python, OpenCV, MediaPipe

- Built a real-time computer vision application analyzing webcam feeds locally (offline)
- Focused on performance optimization and low-latency processing

Minishell (42 Project) — C, Unix/Linux

- Reimplemented a Bash-like shell from scratch
- Worked with low-level system calls (fork, execve, pipe, signals)
- Managed memory carefully to avoid leaks

Todo Application — Swift, SwiftUI, CoreData

- Developed a native iOS/macOS application with persistent storage
- Designed a clean UI with no external dependencies

PROFESSIONAL EXPERIENCE

KBA (Kitesurf School & Café) — Operations Assistant, Phuket, Thailand *Nov 2024 – Apr 2025*

- Assisted in the launch and daily operations of a new café and kitesurf school
- Worked in a multicultural environment with diverse operational responsibilities

Intermarché & McDonald's — Crew Member, France *Oct 2023 – Dec 2023*

- Worked in fast-paced environments requiring teamwork, efficiency, and discipline

SKILLS

Programming: C, C++, Python, Swift, Rust, Shell, SQL

Technologies: Git, Docker, Linux, OpenCV, LLM APIs, SwiftUI, MediaPipe

Languages: French (Native), German (Fluent), English (Fluent)

INTERESTS

Automation, systems programming, low-level computing

International travel (18 countries across Europe, Asia, and Africa)

Music, piano (playing since age 5)
